Dear Parent/Legal Guardian:

Henry County strives to provide students with a detailed understanding of the fundamentals of driving and fosters responsible attitudes to driving behavior. Information in this letter must be completed in order to enroll your child in the "In-Car" phase of Driver Education.

Successful completion of a state approved driver education program does not alone make a teenager a responsible and experienced driver. **Teen drivers have a disproportionately high percentage of vehicle crashes. The most common causes are immaturity, lack of experience, attitude, and a perception of immortality.**

The family, not the school, is in the best position to have a sustained effect on minimizing the risks faced by inexperienced drivers and encouraging responsible behavior. Throughout this course, **emphasis is placed on extended supervised practice with a licensed parent or guardian in order to develop precision in the application of skill and processes.**

Please complete this form with the understanding that you have certified that your child is mentally, physically, and otherwise able to operate a motor vehicle safely. You understand that in order to be eligible for a driver's license, your child must drive with a mentor for at least 45 hours, 15 of which must be after sunset. The provided 45 hour Driving log must be completed, signed, and turned in to the school on the day the student is issued a 180- day temporary permit. Your child must be 16 years and 3 months old and have a Learner's Permit for NINE months before the school can issue a 180 – day temporary license.
